IAERE Newsletter - 4th issue!

We are glad to present the IAERE Newsletter.

It is meant as a tool for sharing information regarding events, research outputs, career and training opportunities in Italy and beyond. Each Newsletter issue includes institutional news and collects all the new contents published in the IAERE website after the release of the previous Newsletter issue.

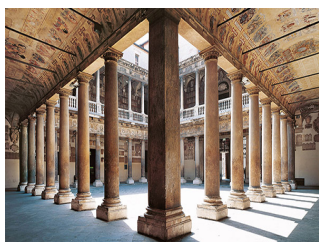

We encourage submissions of contributions to be posted in the IAERE website by writing at iaere@iaere.org.

IAERE Elections

The Elections took place within the [2015 General Assembly of members](#), on February 20th, 11.30 am, in Padova, in the same location where the [Third IAERE Annual Conference](#) was held.

Three new Council members were elected: Simone Borghesi, who will be a Council member from 2016 to 2021 (2016-2017 as President Elect, 2018-2019 as President, and 2020-2021 as Past President), and Silvana Dalmazzone and Giovanni Marin, who will be Ordinary Members of the Council from 2016 to 2019.

IAERE Third Annual Conference

The Third Annual Conference of the Italian Association of Environmental and Resource Economists (IAERE), hosted by the Department of Economics and Management – University of Padova (20-21 February, 2015) has been successful in attracting a large number of Italian and foreign scholars, with a wide range of research interests.

The unprecedented large number of abstracts submitted for the meeting indicates the increasing interest of our community in IAERE conferences. The final program included 56 presentations over 12 parallel sessions, with a good mix of theoretical models and empirical studies. The conference also benefitted of the contributions of Carolyn Fisher (Resources for the Future) and Paul Ekins (University College London), who gave to two excellent keynote speeches on environmental and trade policies and on the perspectives of EU climate and energy initiatives.

The meeting ended with a visit to the Padova's Botanical Garden, the oldest university botanical garden in the world, part of the Unesco World Heritage List, where participants had also the opportunity of enjoying the recently opened Biodiversity Garden.

Over the years, IAERE annual meetings have succeeded in offering a forum for high-quality discussion on various aspects of environmental and resource economics, and the increasingly large share of young researchers attending the conferences is a source of hope for the future of our Association. So ... see you next year in Bologna!
